

Selling to Sole Traders with Two

Selling to Sole Traders is part and parcel of doing business. Without it, you're saying goodbye to a huge chunk of your customer base. Which is why we've made it possible to sell to Sole Traders using Two!

Harness the total value of Two's B2B BNPL solutions for **all your customers** - whether they're limited companies or individuals - for **increased B2B sales and improved cash flow, all while Two handles the admin and credit risk.**

How to use Two when selling to Sole Traders

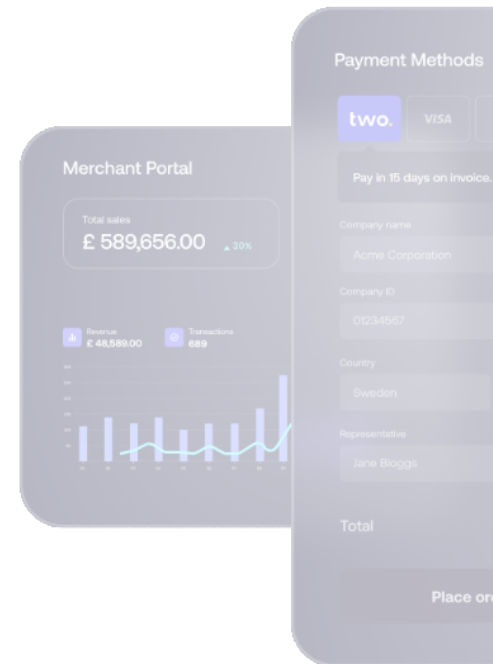

Simple! Selling to Sole Traders using Two is largely the same as selling to limited companies:

- ✔ Same instant credit-checks!
- ✔ Same flexible payment terms!
- ✔ Same smooth checkout experience!

Because sole traders are individuals, we need to run additional identity checks for **both your security and ours.**

This means sole traders need to provide more personal information for us to grant them payment terms.

These additional requests are integrated directly in the checkout flow for ultimate flexibility. Simply focus on selling!
